A1	<p>GET UNSTUCK</p> <p>Get Unstuck is not your average workshop! As an experienced teacher for over 20 years and life coach for teachers and mid-lifers for over 3 years I can speak to what teachers are experiencing in and out of the classroom such as, frustration with unrealistic expectations, being overwhelmed from extreme student behaviours and of course, exhaustion. This workshop is unique because self-development and empowerment are shared through a teacher's perspective, immediately connecting me to the audience. I offer valuable insights and strategies based in thought work to help improve the overall well-being of our OCEA colleagues and motivate them to ignite their own power.</p> <p><i>Lyne Frank, Teacher & Certified Life Coach for Teachers and Mid-lifers, Halton DSB</i></p>

It is intended to offer useful ideas and resources for cooperative education teachers, experiential learning leads, including OYAP coordinators, SHSM and SCWI leads and teachers, guidance counsellors, student success teachers and administrators as they work together to create and deliver experiential learning programs throughout the province.</p> <p>This document replaces “Designing for Success 2009”, in order to incorporate the new policy and curriculum expectations presented in “The Ontario Curriculum, Grades 11 and 12: Cooperative Education, 2018”. In addition, I want to discuss what a career in the skilled trades look like and how we can find creative ways to introduce students to different skilled trades. Finally, why it's important to address and dispel the stigma surrounding a career in the skilled trades, and how this pathway compares to university and college.</p> <p><i>Brandi Ferenc, CEO, Fair-Trades Toolbox</i></p>
