<p>C2</p>	<p>APPLYING THE INQUIRY-BASED MODEL TO YOUR CO-OP CLASS</p> <p>Incorporating the inquiry-based model into a Co-op class (virtually, as a pre-placement activity, or culminating) allows students to fully experience the connection between classwork and the world of work. The process develops and strengthens global competencies, with a focus on problem solving and teamwork, and students work closely with the industry partners, developing solutions to real industry problems. From our experience, students love this model because it provides a deeper understanding of the community partners while simultaneously developing the students' confidence.</p> <p><i>Larissa Barr, Assistant Coordinator for Experiential Learning, Toronto DSB and Leeanne Bouteiller, Central Experiential Learning Teacher, Toronto DSB</i></p>

C3	<p>EDUTRAVEL: HOW TO OPTIMIZE SHSM CERTIFICATIONS</p> <p>Our team at EduTravel is looking to maximize the effectiveness and importance of elective certifications for Ontario students enrolled in the SHSM program.</p> <p>Andy Cameron, Account Manager, EduTravel</p>
C4	<p>MYBLUEPRINT: EMBEDDING REFLECTION INTO THE EXPERIENTIAL LEARNING CYCLE</p> <p>Educators often ask us 'How can I easily integrate reflective practice into my Co-op course?'. Join this session to learn how students can easily document their experiences, reflect on their learning, and create multimedia artifacts showcasing their mastery of the curriculum. Educators will leave with a free account and learn how to backwards design learning prompts tied to course curriculum, provide descriptive feedback, and assess student learning using the latest tool by myBlueprint, SpacesEDU.</p> <p>Jordan Lewis, Partner Development and Success Specialist, myBlueprint</p>
C5	<p>INCREASING OPPORTUNITIES FOR STUDENTS IN MANUFACTURING</p> <p>Excellence in Manufacturing Consortium (EMC) is a unique not-for-profit organization that was formed by manufacturers to provide industry development throughout Canada. EMC will provide an outline of the state of the Canadian manufacturing sector in 2022, and present manufacturing initiatives designed to help attract young talent to the sector – including programs available to high school Co-op students.</p> <p>Susan McLachlan, Project Coordinator and Raf Khan Director, Manufacturing Initiatives, Excellence in Manufacturing Consortium (EMC)</p>
C6	<p>EXPERIENTIAL LEARNING - STUDENT DRIVEN CAREER AWARENESS</p> <p>Would you like to work with the students in your school to host a Career Awareness event rooted in student voice and participation? If so, please attend this workshop. You will learn how easy it is to create an amazing experiential learning experience with authentic community and Co-op connections based on student interest and student leadership, with an added bonus of growing your Co-op program! You will explore how to plan a Career Awareness event which will allow students to explore various volunteer, educational, and career related pathways and increase their awareness of the possible pathways available to them in the future. Various Career Awareness models will be discussed, all of which allow for participation, reflection, and application. By hosting such event at your school, students will be able to identify various volunteer possibilities related to the job they would be interested in, plus begin to understand the educational pathway required for that particular job. This will ignite lifelong learning at a young age.</p> <p>Sonia Janik-Corvinelli, Co-op Teacher; Business SHSM Lead Teacher; Environment SHSM Lead Teacher; Co-op Subject Council Chair, Dufferin- Peel Catholic DSB</p>
