Congratulations! You have managed to help your students and your colleagues through an exceedingly difficult time in our world -- a time that will go down in history. We are so proud of our members for coming up with creative ideas and resources that allowed Cooperative Education and all other forms of Experiential Learning students the opportunity for continued success. Many of you used the pandemic as a learning platform to teach students about safety, resources, and essential employment opportunities. Many of our students were called upon to fill the gaps in various workplace settings.

Thank you for all your support during this unprecedented time in our lives. With the uncertainty of what the next school year may bring we want our members to know that OCEA will continue to provide resources and direction. Please take some much-needed time over the next couple of months to relax, re-energize and look after yourselves and your families. Stay safe and stay well!

"Experiential learning takes place when a person involved in an activity looks back and evaluates it, determines what was useful or important to remember, and uses this information to perform another activity."
